

# Using Filters to Improve Equity

People talk about equity, but how do you use data to improve it? Asking good questions can help you identify goals and set targets. For example, data can help you compare who you are serving to your local population or identify how well adult learners are progressing.

**TIP**

Use **filters** to discover gaps in service and patterns based on **gender, race/ethnicity, or age**.

Each chart has up to three **filters** you can set to focus your inquiry.

## See it in context

Metrics may have one, two, or three filters.

Filters can be used individually or in combination.

Different metrics have different items in the filters.

### Participants Who Earned a Postsecondary CTE Certificate

Among all participants, the number who earned a career technical education (CTE) certificate in a K12 adult school or college noncredit program in the selected year. ?

# Exploring Equity Gaps — Step-by-Step #1

## START WITH A QUESTION

### Are all genders equally enrolling in CTE?

- 1 On the home page, click **View Students and Programs**

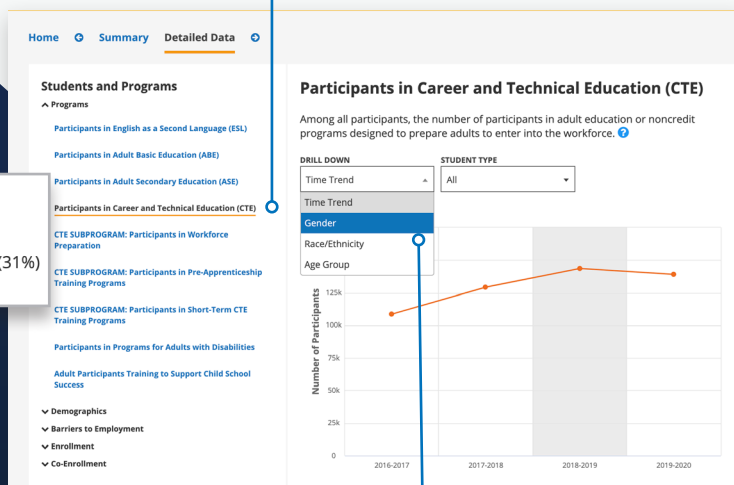

- 2 It will take you to a **summary** page
- View charts of the total population by ethnicity, age, and gender
- NOTE:** In the summary view, you can use the **filters** at the top of the page to refine the population described in the charts.

- 3 Click on **Detailed Data**
- Drill down to specific topics — like CTE

- 6 **View the results**

Hover over the chart to see percentages.  
If the results are different from your goals, make a plan to research root causes

Then use the filters to drill down to **Gender**

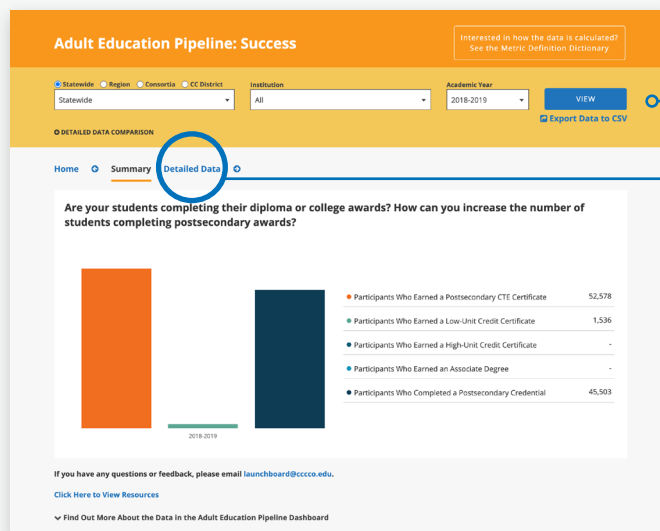

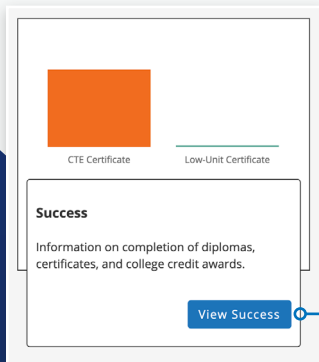

- 5

# Exploring Equity Gaps — Step-by-Step #2

## START WITH A QUESTION

### How well are we doing in helping females earn a postsecondary CTE Certificate?

- 1 On the home page, click **View Success**

- 2 It will land you on a **summary page**

You can still refine the population you want to know about by using **filters** at the top of the page

See summary details by ethnicity, age, or gender

- Click on **Detailed Data**

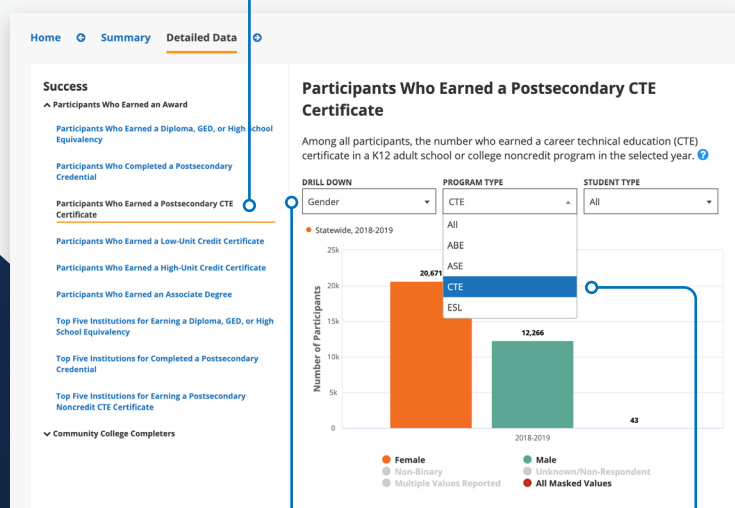

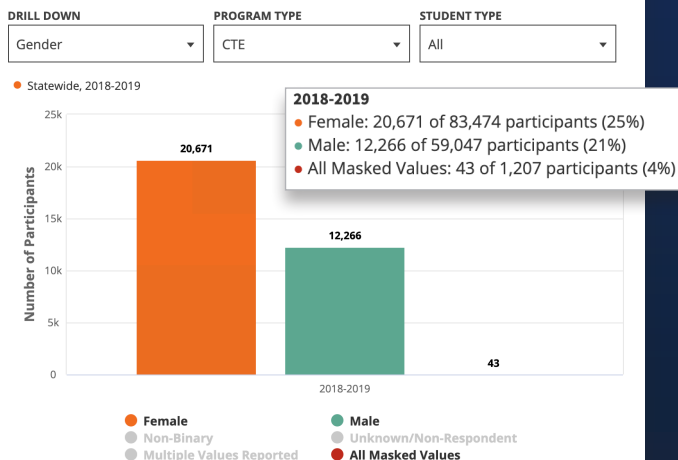

- 3 On the left sidebar, select **Participants Who Earned a Postsecondary CTE Certificate**

## 6 View the results

Hover over the chart to see percentages. If the results are different from your goals, make a plan to research root causes

### Participants Who Earned a Postsecondary CTE Certificate

Among all participants, the number who earned a career technical education (CTE) certificate in a K12 adult school or college noncredit program in the selected year. ?

- 4 Use the filters to drill down to **Gender**

- 5 Set Program Type to **CTE**
